

SNP Minecraft

Guidelines

We prefer not to ban anyone, so please follow these guidelines so we can all enjoy our time with others.

ANY FORM OF GRIEF OR OTHER THREATENING BEHAVIOUR IS NOT PERMITTED

Destroying, damaging, removing, modifying, or adding anything to other players builds without their permission, or taking/stealing any other players items is considered griefing.

OFFENSIVE CONTENT WILL NOT BE TOLERATED

Offensive item/mob names, skins, Minecraft structures, usernames, or chat is not allowed. You will be required to change or remove any content if asked by a staff member.

SPAMMING IS DISRUPTIVE

Spamming is filling chat with multiple unneeded characters or messages, or using spamming commands. Anyone who chooses to spam will be subject to the decisions made by staff.

We would prefer to spend our time with you to discover, build, create, explore and play on this Realm.

ALLOW MODERATORS TO DO THEIR JOBS

It is a moderator's job to assist with these guidelines. If you have any concerns please alert staff in-game or directly, as we are here to help and support everyone.

Decisions made by staff members will be enforced, and warnings may not be given beforehand. If you would like to appeal, please contact that staff member privately to resolve the issue, or use our ban appeal form.

Note: The above guidelines are subject to change.
